

The **FUTURE** Sprint Methodology

Day 0 to 5 agenda and output templates

The Incremental Pathway

FUTURE is TIP's 5-day sprint plus 13-week embed for organisations ready to re-imagine demand-to-delivery. It sits within **STEP 2 (Broader Impact)** and converts STEP 1 capacity into commercial outcomes.

Investment: £44,750

Who this is for

Organisations that have completed **STEP 1** and have proven capacity evidence. The board is asking for commercial return. You need **revenue, cost-out, or velocity gains within 90 days**.

The 5-Day Sprint Agenda

Day 0	Pre-sprint	Customer intelligence gathering. Demand analysis. Current-state mapping.
Day 1	Customer-back analysis	What does the customer actually need vs what you deliver?
Day 2	Demand-to-delivery mapping	Where are the bottlenecks, handoffs, and waste?
Day 3	AI-enabled redesign	Which steps can be compressed, automated, or eliminated?
Day 4	Prototype and test	Build the first working version of the redesigned process.
Day 5	Evidence pack & roadmap	Present to sponsor. Define 13-week embed milestones.

The 13-Week Embed

Weeks 1–4	Implement quick wins from sprint. Measure baseline metrics.
Weeks 5–8	Scale validated changes across team. Refine based on evidence.
Weeks 9–12	Embed new operating rhythm. Train internal champions.
Week 13	Evidence review. Present commercial impact to sponsor. Define next steps.
